

TLC's 2018 Boston Regional Blurbs:

Smashing Our Glass Ceilings

❖ We are here to watch shards fall from the glass ceilings we will shatter together. We gather together as a TLC family, learning and sharing on principle-driven and principle-reinforcing procedures.

❖ We determine the value of these procedures through the lens of what grows and slows our abundance-accumulation and our capacity for giving back. May this day be rife with community.

❖ May we focus on our CAs' abilities to utilize specific TLC tools in practice so that *they* can empower *us* to shatter our glass ceilings. Our time here together will be informative and fun, interactive and instructive, connecting and unique to every single one of your practices' needs.

❖ We know from experience and feedback that the depth and intensity with which we prepare for our TLC gatherings will greatly enhance what we each get from the experience. Embodying this insight, we are using this message to invest in each of you more specifically.

❖ We are doing what it takes to ensure that you wholeheartedly know exactly what we plan on delving into during our brief time together.

❖ Some of the viscerally engaging, paradigm-shifting concepts that we will be exploring in Boston are as follows:

-“Five Steps to Creating Space for Growth” with Dr. Jen DePice

-“Do the Math: Classic TLC Calculations to Know Our Thresholds”
with Dr. Jen DePice

-“Utilizing Course Correction Procedures” with Dr. Phil Szalowski

-“O3 & Targeting for Consistent Growth” with Dr. Jen DePice

-“The Most Right Thing” with Dr. Jen DePice

❖ *Five Steps to Creating Space for Growth*

Refined into crystallized crucibles through which we witness and articulate present and potential growth,

❖ *Do the Math*

Show up with us in this class as we conduct a fastidious and ferocious interrogation of our practice #s. This class is engineered for us to master the science of knowing and setting new targets with threshold #s specific to our current practice level.

❖ *Course Correction*

Show up with us in this class as we wrangle with our entrenched, subliminal resistance to growth and with all of the ways in which we have been wired to block our God-ordained abundance. Ultimately, we will design custom execution blueprints for unleashing your optimal growth.

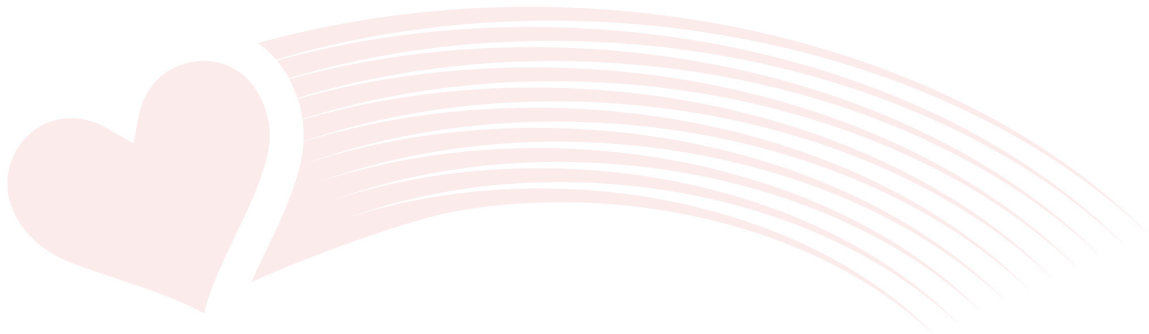

❖ 03

Show up with us in this class as we experience the seemingly effortless excellence of a perfectly executed accountability meeting. Our focus in this experiential facilitation will be on ideal connection and on hitting your unique growth targets. Fellowship with us and be fueled to facilitate mutually beneficial meetings that compound the momentum at which we move toward our goals.

❖ Show up with us in this class as we unpack and appreciate all of the discrete, layered, threads of expression that we will have woven together in the preceding hours, by that point in the day. We will unpack with the express intent of building alchemical application plans with which we will return home and use to transform specific disciplines into measured growth in our practices.

❖ Taking critical stock of our different triggers and strengths, in concert with our teams and families will safeguard our growth, setting it up to resist inevitable obstacles and to attain consistency.

❖ As the smoke clears in the wake of our professional fellowship, our personal fellowship will blaze forth. So please plan to stay. If you would be so kind as to let us know what time you, your family and your team plan on staying until whether Friday night or Saturday morning, we will be able to invoke our trademark TLC inclusive culture together in Boston like we have been doing in Virginia, South Carolina and Detroit.

❖ We look forward to your reply. And don't forget to bring a friend so they can experience your inspiring TLC Community too!
