

EXAMPLE OF FEE CHANGE LETTER

Dear HVC Family of Patients:

We are continuing to increase the amount of continuing education the team and the doctor have been engaging in. We are doing this to bring the best possible care to your families and our community. As our mission is to educate and adjust as many families as possible towards optimal health through chiropractic care, we must stand and training to be ever vigilant and ready to serve.

You may have already noticed we have invested significantly in our infrastructure upon which we serve you. Software and hardware is now in place to make your billing and records keeping more service efficient and stress reduced. This is allowing us to streamline the process of working with your insurance companies so you can continue receive the greatest chiropractic care, along with the greatest return from you insurance carriers. We simply want your appointments at HVC to be the best part of your day!

Our Health Evolution Seminars have also been strengthened; All new programs to benefit our community. Please take advantage of these seminars. After health is a process, not a destination!

While we have been working to keep Harbor View Chiropractic at a "state of the art level", it has been many years since our fees have ever been adjusted. We will be making some much needed but small changes in our investment cost for some of our services. These changes will not be effective until at least the beginning of September and will not apply to you until you have your next re-assessment and we will go over the financial changes personally.

Sincerely,

Your Family Chiropractic Team
